## WRITING

Our town park.

The ~~par~~ park is located in the centre of our town. Most of the trees in the park are pine-trees, so you can enjoy cool shadow on hot sunny days.

I love this park because there are many comfortable places where you can read, play with kids or take nice pictures. In addition, the park has rollerskating and cycling paths. Moreover, there are some monuments with the names of the defenders of fatherland, who died to save our country from enemies. There is the central square of Nyagan nearby, so people can enjoy music concerts and some fun attractions in summer. special  
I would recommend this place to visit because of its atmosphere of cosiness, warmth and comfort.
